Achievements

GATE 2026 – Data Science & Artificial Intelligence

Qualified with All India Rank (AIR) **7007**

Published 2 Datasets on Kaggle

AI Scout – AI Tools Dataset (4,270 tools)

GitHub Repository Analytics Dataset

Education

Ramrao Adik Institute of Technology, D. Y. Patil Deemed to be University

B.Tech in AIML (CSE) , CGPA: 8.01/10

July 2023 – Present

Mumbai, India

Shree Samarth uccha madhyamik vidyalay

Higher Secondary (12th Grade), Percentage: 82.50% (PCM: 86%)

Completed 2022

Pune, Maharashtra

Holy Cross High School

Secondary School (10th Grade), Percentage: 85.20%

Completed 2020

Mumbai, Maharashtra

Projects

UPI Transaction Analysis & Data Validation | Power BI, DAX | [GitHub](#)

- Analyzed **20,000 transaction records** across 20 attributes; created a **DAX** calculated column to segment customers into age groups. Identified a **100% transaction failure rate** isolated entirely to the Shopping category (**40L** blocked value) versus 0% across all other categories, and validated failure rates across banks, cities, and device types to rule out channel-level causes.
- Built an interactive **2-page Power BI dashboard** with donut/pie charts, **10 synced slicers**, and bookmark navigation; profiled transaction value distribution, finding the **top 25% of transactions accounted for 44% of total value**.

Student Exam Performance Predictor | Python, Flask, Scikit-learn, XGBoost, CatBoost | [GitHub](#)

- Constructed a modular end-to-end ML pipeline on **1,000 student records** with separate components for data ingestion, preprocessing, and model training—benchmarking **7 regression algorithms** (Linear Regression, Decision Tree, Random Forest, Gradient Boosting, XGBoost, CatBoost, AdaBoost) via 3-fold cross-validated grid search, auto-selecting the top model by R^2 score (**Linear Regression**, $R^2 \approx 0.88$).
- Deployed the workflow as a **Flask web application** with a prediction UI, custom exception handling with file/line tracing, and centralized timestamped logging across all pipeline modules.

Technical Skills

Languages: Python, SQL

Data & ML Libraries: Pandas, NumPy, Scikit-learn, XGBoost, CatBoost

Analytics & BI: Power BI, DAX, SQL Server (SSMS)

Web & Deployment: Flask, GitHub Actions (CI/CD), BeautifulSoup, Requests

Tools: Git, GitHub, Kaggle

Core Areas: Machine Learning, Data Analytics, ETL Pipelines, Data Structures & Algorithms

Soft Skills: Problem Solving, Analytical Thinking, Teaching, Communication, Teamwork

Experience

Suhyog Classes

June 2024 – April 2026

Mathematics Tutor (Classes 8, 9 & 10)

Sakinaka , Andheri

- Mathematics tutor for **250+ students** across 2 academic years in foundational mathematics, quantitative reasoning, and logic, conducting regular assessments and performance tracking.

Riddhi Classes and Computer Institute

December 2025 – February 2026

Mathematics Tutor (Classes 9th & 10th)

Kajupada , Kurla

- Mathematics tutor for **20+ students** over 3 months in foundational mathematics, quantitative reasoning, and logic, conducting regular assessments and performance tracking.

Hobbies and Interests

Swimming, Current Affairs & News, Politics(Rural - National - Geo) , Teaching and Mentoring, Researching Online (Googling) , Watching (buisness , political , case studies) across internet
